

Emergency Preparedness Plan (EPP)

Staff Emergency Preparedness Plan (EPP) Education

Dare to Care Home Care has established an Emergency Preparedness Plan (EPP) designed to manage consumers' care and services in response to the consequences of natural disasters or other emergencies that disrupt Dare to Care Home Care's ability to provide care and services or threatens the lives or safety of its consumers.

The Emergency Preparedness Plan includes the provisions for the management of all staff who are designated to be involved in emergency measures, including the assignment of responsibilities and functions. All staff are informed of their duties and responsible for implementing the emergency preparedness plan.

Education for consumers, caregivers, and families on how to handle care and treatment, safety, and/or well-being during and following instances of natural (disease outbreak, tornado, flood, blizzard, fire, etc.) and other disasters or other similar situations appropriate to the needs of the consumer.

Plan Maintenance	Dare to Care Home Care will review its emergency preparedness plan after any incident response and on an annual basis and incorporate into policy any substantive changes.
Staff Access	A master copy of the EPP will be maintained by Dare to Care Home Care Manager in office. The plan will be available for review by all employees.

Emergency Situations

Emergency situations could include, but are not limited to, the following: pandemic, disease outbreak, active shooter, tornado, blizzard, flood, fire, civil unrest, gas leak, IT system outage, seasonal influenza, etc.

Emergency Response Procedure

In the event of an emergency situation, staff should follow the steps below. If there is any question on the course of action, staff should always contact Dare to Care Home Care directly.

1	Ensure the client is safe and away from the emergency. This could include moving the client to either the highest level in the home for emergencies like a flood or water leak, moving the client to the lowest level in the home for emergencies like a tornado/thunder storm/natural disaster. Staff are to contact 911 in an immediate emergency and then contact Dare to Care Home Care for next steps.
2	Do not leave the client's home until receiving direction from Dare to Care Home Care.
3	Ensure your cell phone and client phone are working properly, if possible, depending on the emergency, so you are able to receive communication from Dare to Care Home Care.
4	Availability: If you are not on assignment with a client, contact Dare to Care Home Care to let them know your availability to help.
5	Follow the direction and assignments provided by the Dare to Care Home Care administrative staff, and wait to hear from Dare to Care Home Care that the emergency situation has concluded.
